

MG H-SEAM

The **MG H-SEAM** Panels have an interlocking hook seam connection and are mechanically fastened with concealed clips and fasteners. The panels are installed in a sequential pattern, hooked on all four sides to form a watertight system. Additional size and material options are available. Please contact M.G. McGrath, Inc. for information.

- **Materials**
 - Steel - 22 to 26 gauge
 - Stainless Steel - 24 and 26 gauge
 - Aluminum - .032" and .040"
 - Copper - 16 & 20 oz
 - Zinc - .7mm, .8mm
 - Titanium - 26 gauge
- **Sizes**
 - Width - 6" to 24"
 - Length - 12" to 118"
 - * Nominal sizes vary based on material
- **Finishes**
 - A full line of finishes are available
 - Finish warranty available
- **Features**
 - Interlocking Hook connection
 - Can be tapered
 - Can be installed on radius substrate
 - Wall and roof applications available
- **Limitations**
 - Cannot be radiused
 - Size Limitations
- **Technical Information**
 - * Specifications are dependent upon conditions
- **Notes**
 - Light gauge material can cause oil canning
 - Pre-finished material will craze at bends
 - Flashing & accessories available

MG H-SEAM

The **MG H-SEAM** Panel can be fabricated to suit complicated structures and field conditions. They can be installed on walls or roofs and are excellent for soldered roofing or rain-screen applications. The panels can be tapered, or applied diagonally for a diamond shaped appearance and can also be applied over radius substrate. The interlocking seams produce clean and simple joints. Panels are also available in a wide variety of materials and colors to create unique designs. Please contact M.G. McGrath for more detailed information regarding your project.
