Produced by the same team that compiles the 22-year-old Star Tribune 100 report of the best-performing public companies in Minnesota, Top Workplaces recognizes the most progressive companies in Minnesota based on employee opinions about organizational health, job expectations and employee engagement. The analysis included responses from over 64,300 employees at Minnesota public, private and nonprofit organizations.

The rankings in the Star Tribune Top 100 Workplaces are based on survey information collected by WorkplaceDynamics, an independent company specializing in employee engagement and retention.

To qualify for the Star Tribune Top Workplaces, a company must have more than 50 employees in Minnesota. Nearly 1,900 companies were invited to participate. Rankings were composite scores calculated purely on the basis of employee responses.
