GREAT PEOPLE. AMAZING RESULTS.

MG B-SEAM

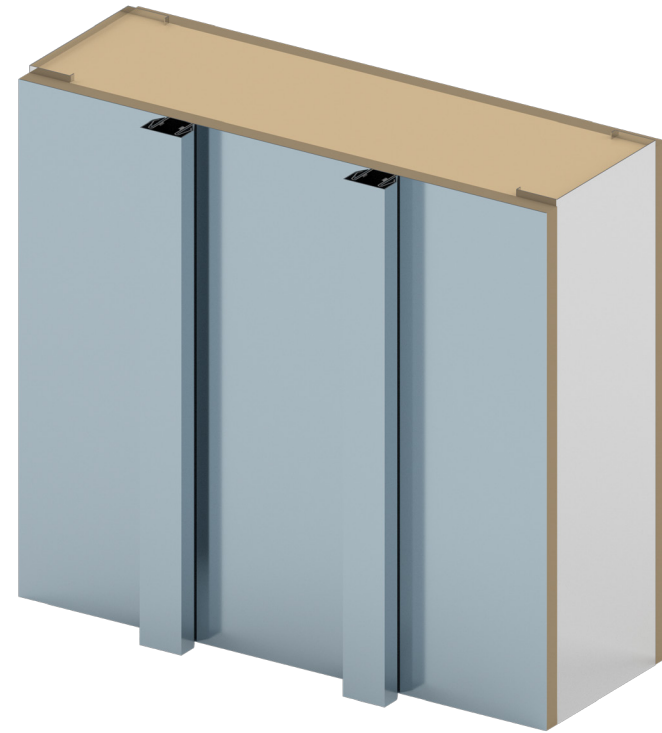

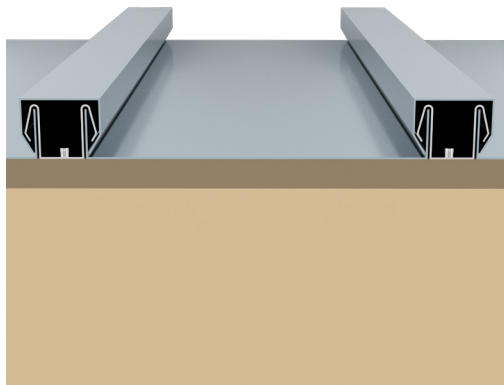

STANDING SEAM PANEL SYSTEM

DESCRIPTION

MG B-Seam panel systems are formed to suit a wide variety of substrates and applications perfect for roofs and walls. This style of standing seam panels feature a snap on batten cap and are mechanically fastened with concealed fasteners. The hold down clips and batten caps allow for movement while still providing a unique design. Panels are installed in a sequential pattern, overlapped and sealed as required to form a watertight system

FEATURES AND OPTIONS

- Includes hold-down clips, batten caps, and stiffeners if required
- Panel system to accommodate substructure tolerance of +0 to -1/8 inch
- Panels can be installed over almost any substrate
- Custom alloys available based on material choice
