GREAT PEOPLE. AMAZING RESULTS.

MG D-LOCK

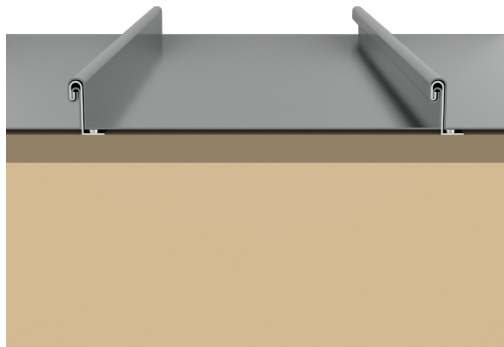

STANDING SEAM PANEL SYSTEM

DESCRIPTION

The MG D-Lock panel system is durable and offers outstanding performance in any climate. They are made to last, and suited for both high and low sloped roofs and walls. MG D-Lock standing seam panels feature a double lock seam and are mechanically fastened with concealed fasteners. The panels are installed in a sequential pattern, overlapped and sealed as required to form a watertight system and protect everything behind it

FEATURES AND OPTIONS

- Includes concealed fastener clips and stiffeners if required
- Panel system to accommodate substructure tolerance of +0 to -1/8 inch
- Panels can be installed over almost any substrate
- Custom alloys available based on material choice
