GREAT PEOPLE. AMAZING RESULTS.

# MG S-SEAM

## STANDING SEAM PANEL SYSTEM

### DESCRIPTION

MG S-Seam panel system offers a unique take on the classic standing seam panel. This system features a snap-on batten cap seam and is mechanically fastened with concealed fasteners. The hold down clips and batten caps allow for just enough movement while providing a unique design for either roof or wall applications. Panels are installed in a sequential pattern, overlapped and sealed as required to form a watertight system over a wide variety of substrates

### FEATURES AND OPTIONS

- Includes snap-on batten caps and stiffeners if required
- Panel system to accommodate substructure tolerance of +0 to -1/8 inch
- Panels can be installed over almost any substrate
- Custom alloys available based on material choice

### MATERIALS & FINISHES
